8th - 9th
Sep 2022

Ramaiah advanced
learning centre
Ramaiah Hospital,
Bengaluru

Message FROM

ORGANISING CHAIRMAN

“

It gives me immense pleasure in announcing **EPIC-2022 (Epione pain integrated course)**, the most awaited 8th Hands on Cadaveric Workshop on Interventional Pain Management. EPIC is among the very few workshops in India which happens every year. EPIC provides the budding pain physicians, an opportunity to learn basic and advanced interventions. We aim to teach the delegates with maximum focus and in making the learning easy and in the most understandable manner. Every year we strive to overcome our pitfalls of the previous year and make it more trainee friendly. I look forward for your support in making this year's workshop a success just like the previous ones.

”

Looking forward to meeting you all at **EPIC 2022, Bangalore**
